Notification of Change in Company Name

Shibaura Machine

Greetings

On April 1, 2020, we will change our business name from Toshiba Machine Co., Ltd. to **"Shibaura Machine Co., Ltd."**

We started business as a machine tool manufacturer in 1938, and the **Shibaura** brand which we are still using has become recognized around the world, particularly in the machine tool industry.

We have continued to evolve by contributing to society through *monozukuri* by drawing on our roots in machine tool technology. This new company name invokes this long legacy and, looking forward, our drive to evolve together with our customers.

We will maximize the use of “our strength as a general machinery manufacturer” to develop into “a manufacturer which co-creates value” together with customers.

Shibaura Machine
